

Hydra Cubus

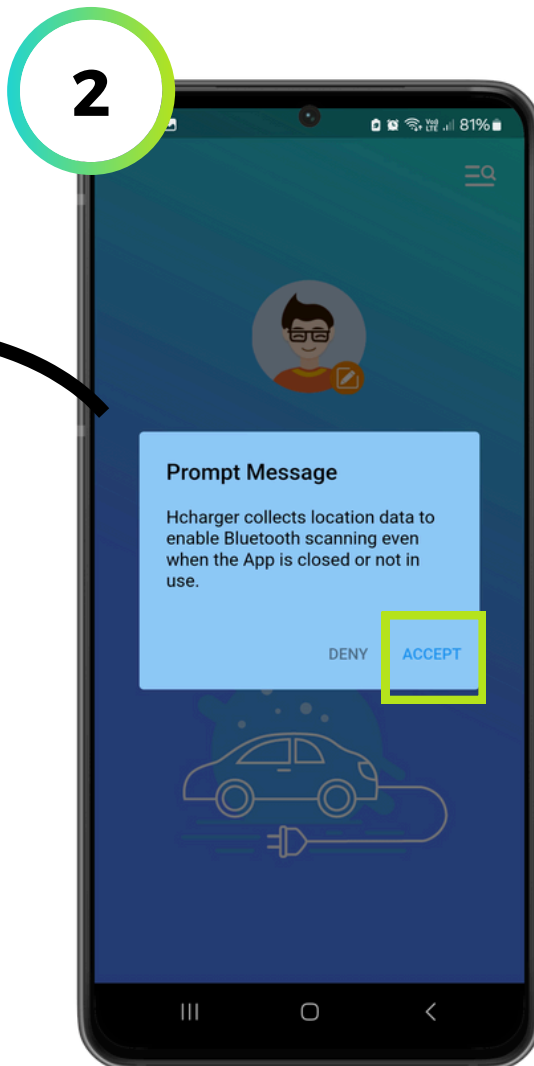

Cleenergy EV Platform Onboarding Guide

- Download the **Hcharger app** for your device.

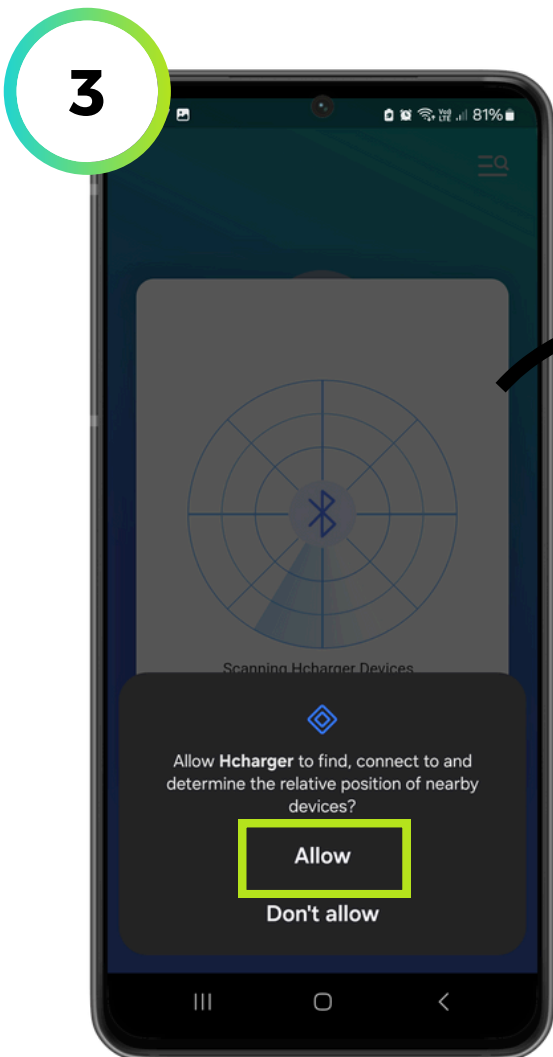

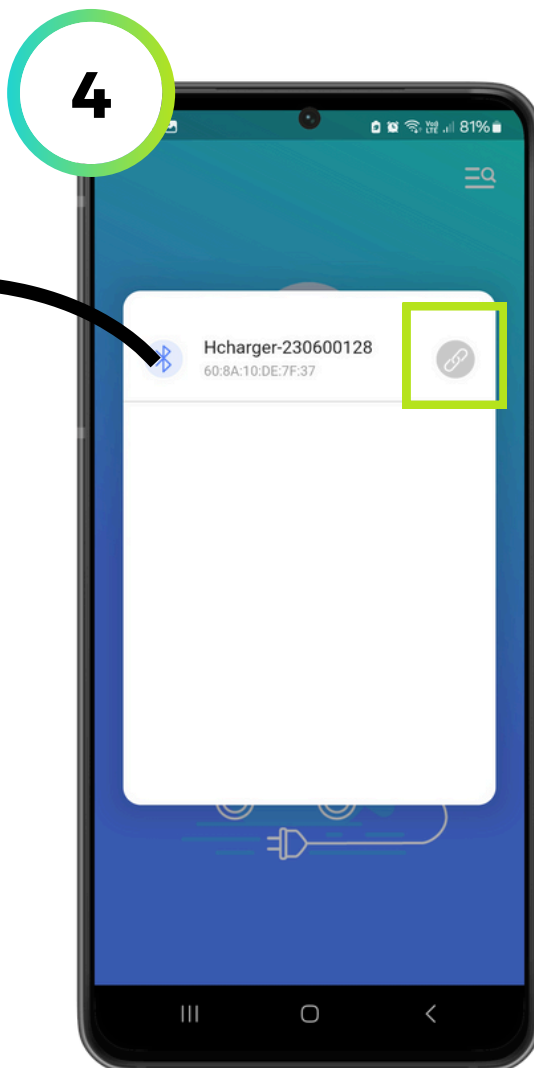

1. Once installed, open the app and select the icon as highlighted.

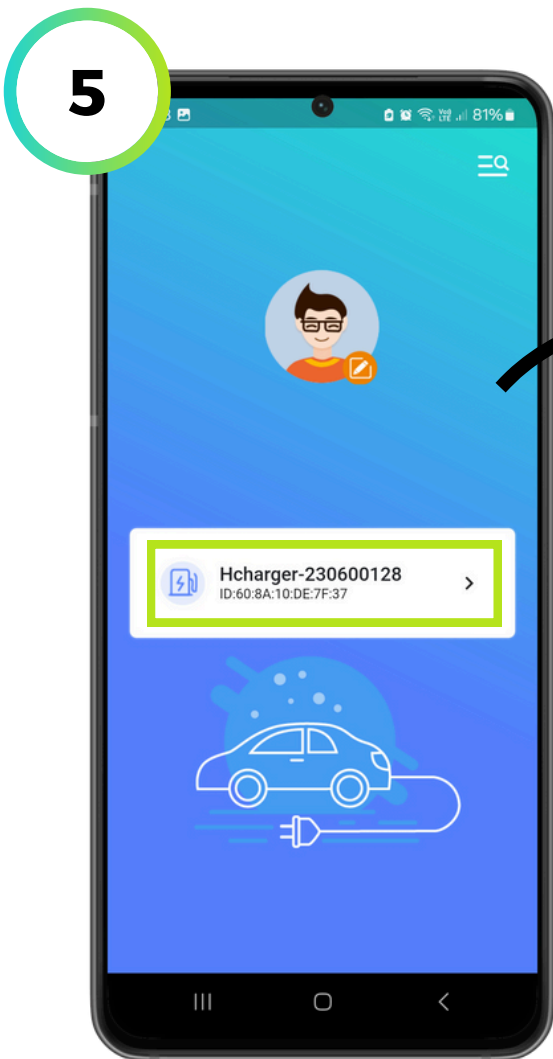

2. Review the Prompt Message and select Accept.

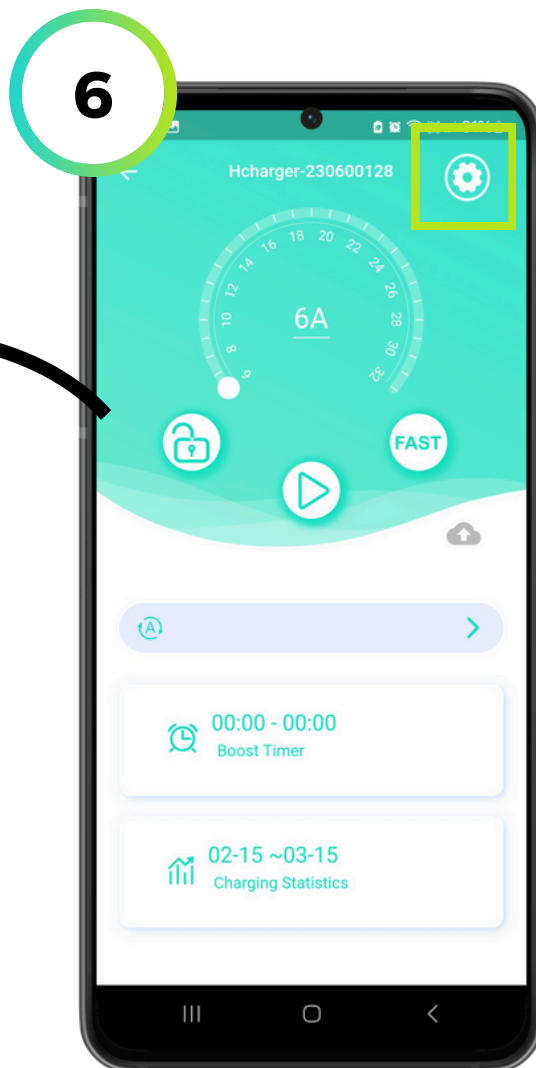

3. Ensure that Bluetooth is enabled on your device and when prompted allow the app to discover nearby charge points.

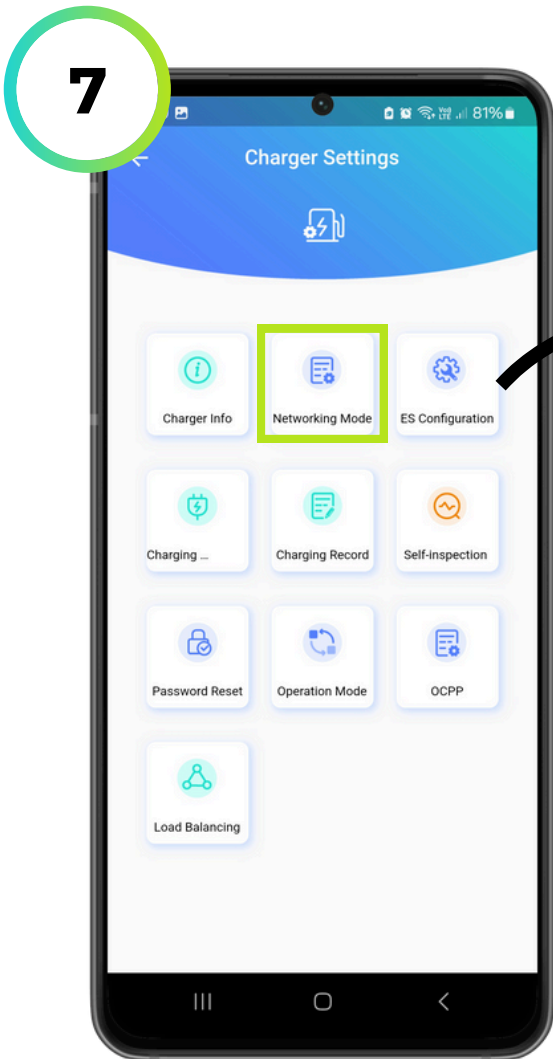

4. Once the app has discovered the relevant charge point, select the link icon. When prompted, enter the PIN located on the side of the charge point.

5. Upon returning to the home screen, select the charge point.

6. Select the settings icon to proceed.

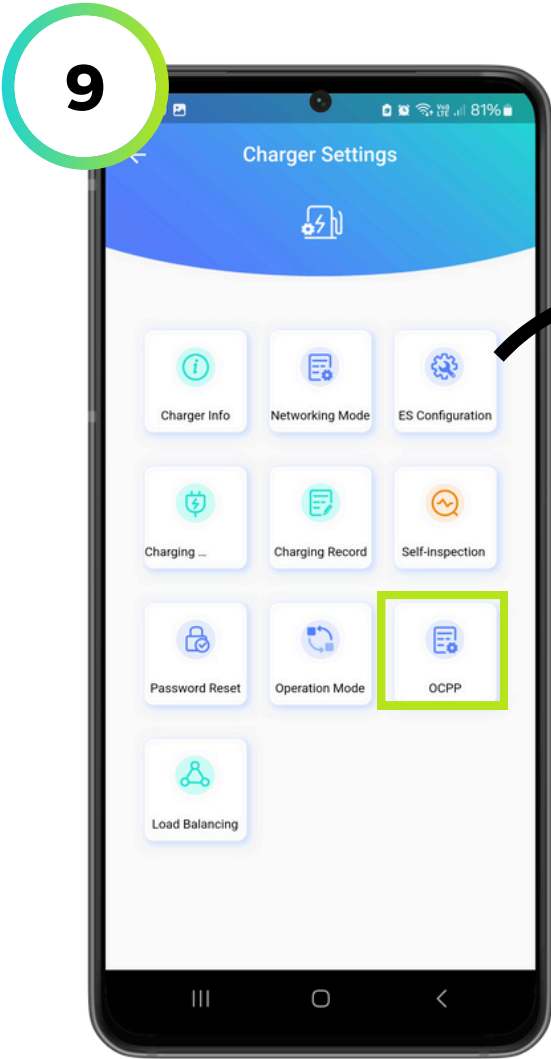

7. Select Networking Mode.

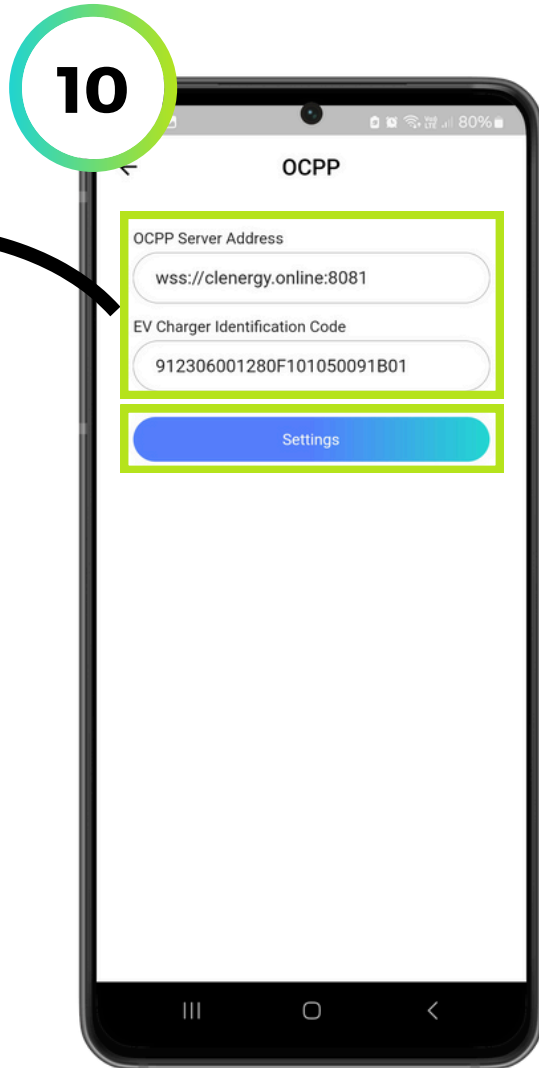

8. Select the desired network connection method and enter the relevant credentials to join.

Please note: If connecting using the 4G method with a Clenergy EV-supplied SIM card, use the following credentials:
APN: eapn1.net
Username/Password: clenergy

9. Wait for the charger to reboot then re-establish Bluetooth communication. Return to the settings menu and select OCPP.

10. Enter `wss://clenergy.online:8081` into the OCPP Server Address field and leave the EV Charger Identification Code as the default serial number. Select Settings to trigger a reboot and complete the onboarding process.
